IE Matrix for Parvaz Enterprise By Morteza Emadi

*If we number the cells from top left to bottom right with I to IX numbers:

Cells I, II, and III suggest the grow and build strategy. This means intensive and aggressive tactical strategies. Your strategies should focus on market penetration, market development, and product development. From the operational perspective, a backward integration, forward integration, and horizontal integration should also be considered.

Cells IV, V, and VI suggest the hold and maintain strategy. In this case, your tactical strategies should focus on market penetration and product development.

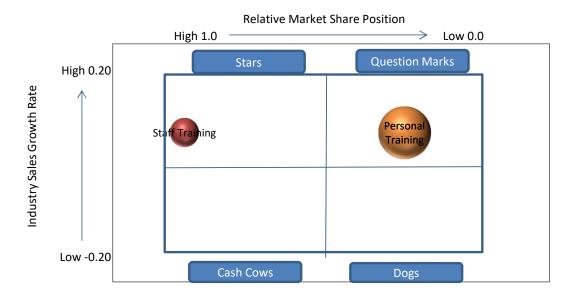

Cells VII, VIII, and IX are characterized with the harvest or exit strategy. If costs for rejuvenating the business are low, then it should be attempted to revitalize the business. In other cases, aggressive cost management is a way to play the end game.

BCG Analyse for Parvaz Enterprise By Morteza Emadi

Division names	Division Revenues of Parvaz Ent.	Top Firm in Industry Division Revenues	Division Market Growth Rate	Relative Market Share Position
Personal Training Staff Training	100	400 100	0.10	0.25

Notice: the numbers are hypothetical since the company hasn't started working

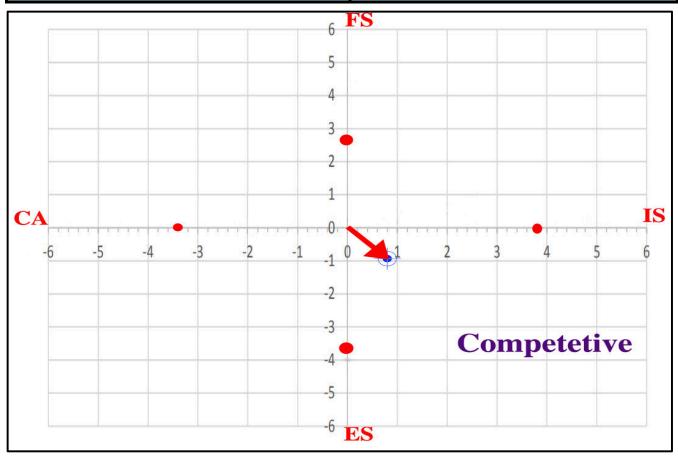

Also as the Staff Training of Iranian organizations by using an independent e-learning website isn't available right now, so the leader of that devision would be our company.
